2019 - 2023
GPA: 3.92

Areas of Interest

Climate Finance; Global Climate and Environmental Governance; International Financial Institutions; Multilateral Development Banks; Green Energy Transition; BRICS; Global South studies; International Relations Theory.

Research Experience

- CAPES Scholar - Master's Candidate** 2023 - Current
Dissertation Title: The Role of Multilateral Development Banks in Climate Financing: A Comparative Study on the World Bank and the New Development Bank (NDB).
- Núcleo de Estudos dos BRICS/ BRICS Study Group (NEBRICS)** 2023 - Current
Volunteer Researcher
- Conducted in-depth research on BRICS and the New Development Bank, contributing to understanding the group's formation, past and ongoing initiatives, and expansion process.
 - Assisted in event planning and managed social media posts that contained weekly short opinion pieces on topics relevant to BRICS countries. Managed a team of 5 researchers and coordinated the weekly posting schedule.
- EmpoderaClima - Non-profit Organization** 2023 - Current
Volunteer Researcher
- Produced short articles on topics that intersect global gender inequality and climate change, contributing to a broader understanding of the relationship between female empowerment and climate governance.
 - Assisted in updating the EmpoderaClima Glossary and database by adding resources and relevant terms in the fields of gender studies, climate policy, and environmental challenges.
- Finance Manager
- Organized and maintained the budget for the *Empoderando pelo Clima* project. Arranged payment schedules. Contacted partners and professionals regarding payment information.
- Research Support Fellowship 1A - Applied Economics** 2023 - 2024
CNPq Scholar
Project Title: Technological Innovation and Firms' Economic Performance: the role of network actor proximities established to generate innovation in productive segments in the human health sector in Brazil and Argentina.
- Organized and launched a Systematic Literature Review to obtain data on publications that highlighted the link between university-firm interaction and the role of public finance in achieving innovation results.

- Aided in developing qualitative and quantitative methodological procedures for the study in order to analyze the data obtained in statistical and descriptive formats.

Undergraduate Research Project-Applied Economics

2020 - 2022

PIBIC Scholar

Project Title: Dynamic Innovation of Brazilian and Argentinian Firms: an analysis of the role of interaction with universities and public financing.

- Filtered through the Brazilian research group registry database and arranged statistical data on the number of university-firm partnerships in the field of human health and their primary results.
- Organized the studies' results and presented them at academic conferences.
